

Navigation

to suit FG Ford vehicles with premium colour screens

User friendly Navigation getting you there safely

Enjoy your driving experience with a VDO navigation system. No more trying to read street directories and drive at the same time...now you can arrive relaxed, with minimum fuss.

When driving, the VDO navigation system will safely guide you to your destination and provide a wealth of information along the way, including an extensive and comprehensive range of 'Points of Interest' data such as Petrol Stations, Banks and Restaurants. Beat traffic congestions by confidently detouring into unfamiliar areas - your personal in-built navigator is ready at the touch of a button!
